

No Ban Method

First, get an aged account (Do not use a new account or your account will be locked)

*Would be better If had a real order on it *

Put your address+billing address (both use the acc name)

Browse for a while like 20 min (best is to browse/add to cart and remove for 1 hour for 5 days)
Put a cc from namso <https://namso-gen.com/> (type by yourself) that has been checked+is live

Wait 5 days (browse each day add and remove)

Apply for a store card (not needed but will boost your chances a lot)

Put the generated amazon store card in payment methods (type it in by yourself)

Add a credit or debit card

Card number

Name on card

Expiration date 01 ▼ 2022 ▼

Security Code (CVV/CVC) [\(What's this?\)](#)

[Add your card](#)

Amazon accepts all major credit and debit cards:

VISA Mastercard American Express DISCOVER JCB UnionPay Diners Club International

Link your card from your bank [Learn more](#) ▼

[Choose bank](#) [Link your card](#)

[Cancel](#)

For the card name put your account name
If it asks for an expiration date just put a high year.
put 000 for the CVV/CVC

Browse/add and remove for another 1-5 days (1 hr each day)

Only put 1 amazon store card at a time and make sure you manually type in the card

When about to buy browse for another 20 minutes must add one thing and remove then buy with the gift option+add to list

Tips:

When you are about to buy something use the same device/same ip you used to put in the card

Buy something under or 25\$ while using the gift option, add it to the list, and slowly increase like (40\$ 60\$ 70\$ 90\$, etc till 500\$ then you can put whatever you want)

Order all products on the same device, using the same IP/proxy. If Amazon sees a different IP, then they will lock your account and cancel your orders. Also keep all account settings the same, (address, name, email, and phone number)

Order to your house, not a random house you found online or you might get locked
Don't use amazon prime/cancel amazon prime

Don't change billing address/destination/shipping speed/phone number and etc after you bought
Don't order any gift cards (has a high chance of getting locked unless using insta-buy method)
Wait for 48 hrs after it arrives then you can buy another item or you'll get your ip banned

Do not use vpn

Never buy ecards

Only buy items with a gift option

For the card name put your account name

Never insta-buy

Never use a new account

Never Leak this method

Got Payment Revision?

Remove your store card, wait for 24 - 48 hrs and redo
