Ca$hApp

If you have add a card on your **cashapp** already use the same Bank, for example if you have had a BOA card on your **cashapp**
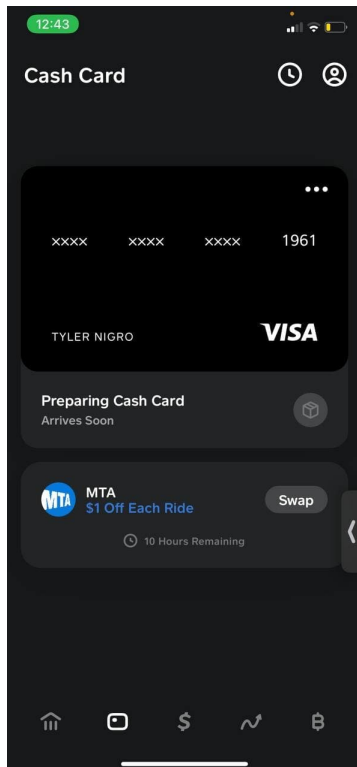

Buy a BOA debit/credit to card on your account

First you need to see if your **cashapp** will let you add debit or credit

a couple of it's pops up to add credit or a debit do before you waste 40$ on a **CC** need you to check

Check by try adding card a card to your **cashapp**

it can be yours or your cousin it dosent matter just had to be valid

 it should tell you if you need to add a debit or credit.

if it doesn't tell you add a specific type of card then use that type

like if you used a credit and it didn't ask you to use a debit then use a credit to card it

after you find that out buy you a **CC** closest to your location/city/state

in the same Bank your card is with on the **cashapp** app, after this add the card to it

Get another account and have somebody request $100 to your acct

then try to pay the request with the card
then keep requesting and paying
till it doesn't t allow you anymore.

To complete the **cashapp** Method Contact Walter on telegram @Welterwhite to buy CC debit bin (527519)
